# ABOUT US

Logik Group Africa was built on the experience and passion of two visionaries — Stephen Ayerst and Ross Landman — taking fire sprinkler solutions and innovation to the next level.
Dynamic, driven and committed, our ASIB-registered team helps clients achieve their requirements quickly and efficiently.

## NICHE MARKET

Nationally we provide turnkey solutions to the fire sprinkler market for both commercial and industrial environments — warehousing, in-rack sprinkler solutions and bulk water supplies.

Our solutions are as varied as our client base; we don't just have clients, we build strategic partnerships and long-term solutions that work.

## MARKET OPPORTUNITY

Logik Group Africa focuses on providing a rich array of solutions within the sprinkler market.

Our goal was to grow a sustainable business and deliver quality projects on time and within budget — achieved through our dedication to client satisfaction.

**ASIB Registered**

**Level 2 GENERIC B-BBEE Contributor**

**National Turnkey Coverage**

# PURPOSE-DRIVEN

## OUR PURPOSE

Defined during COVID Lockdown in 2020, we realised our business had to shift and be purpose-driven — working to a higher meaning. In October 2020 the Company's entire personnel agreed on ***"To Passionately Protect LIFE through bespoke, innovative fire systems."***

## OUR LIFE VALUES

**L**

**LOVE**

Love in everything we do

**I**

**INNOVATION**

Smarter, connected fire solutions

**F**

**FIRE**

Driven by purpose and heart

**E**

**EXCELLENCE**

Quality delivered every time

*Every person breathes LIFE to passionately protect life.*

# SERVICES

Logik Group Africa specializes in the fire sprinkler market for commercial, residential, retail and industrial environments, as well as service level agreements.

We are equipped with the right tools and solutions for the various built markets — data centers, warehousing, in-rack sprinkler solutions and bulk water supplies.

We focus on site management and easy, effective ways to manage various sites.

The company thrives on giving each client specialised services to suit their needs — outstanding service from start to finish.

Not just providing a service, but giving the client an experience.

## SMART TECHNOLOGY

We invest in technology to aid our design process in Revit — generating automatic fabrication lists through a specialised plug-in.

We've adopted a proprietary-built app, Inspeckta, moving all our information into the Cloud: every client has access to their inspections, never lost.

Technicians follow checklists, comment on checkpoints, and capture photos and videos within each check.

## OUR SERVICE RANGE ALSO INCLUDES

- Pumps
- Fire Handheld Equipment
- Ventilation Systems
- Detection Systems
- Valves
- Sprinkler Systems

# NATIONAL SERVICES

- Fire Hydrant, Hose Reel & Extinguisher Servicing
- 3D Design Scanning
- Online Risk Profiles & Checklists
- Fire Sprinklers
- Fire Pumps & Servicing
- Fire Tanks & Servicing
- Smoke Ventilation Servicing
- Telematics
- Comprehensive Weekly Inspections
- Smoke Detection
- Gas Suppression
- Sprinkler Valve Overhauls
- Diesel Refilling Service
- Generator Servicing
- New Projects & Refurbishments
- Hilti Solutions Fire Stopping

# WE DO INSTALLATIONS OF:

- Fire Sprinkler System Installation & Maintenance
- Ventilation System Installation & Maintenance
- Detection System Installation & Maintenance
- Gas Suppression Installation & Maintenance
- Fire Equipment Supply, Installation & Service
- Fire Pumps & Tanks Installation & Maintenance
- Nitrogen Filled Pre-action Systems Installation & Maintenance

# WE OFFER PLANNED PREVENTATIVE MAINTENANCE:

- Sprinkler Systems
- Fire Pumps
- Fire Tanks
- Smoke Ventilation and Extraction
- Smoke Detection
- Gas Suppression
- Fire Hydrant, Hose-reels and Extinguishers
- Pre-action Systems
- Online Checklists & Telematics

OUR TEAM

# ORGANOGRAM

# PARTNER PROFILE

## Stephen Ayerst

Chief Executive Officer

23+ years' experience in the Fire Industry, an A-grade on the ASIB rule-book exam, and a Marketing degree from Nelson Mandela Metropolitan University.

Key negotiator on projects including Unilever Mother Warehouse, the JD Group National Warehouse roll-out, Heidelberg Mall and Standard Bank Rosebank.

## Ross Landman

Operations Director

Energetic, hands-on and hugely experienced across the construction and fire industries.

With 16+ years in the Fire Industry and superb project-management skills, he ensures the seamless running of large projects — Standard Bank Rosebank, Menlyn Maine Central Square, Deloitte Midrand, Vantage Waterfall, and Special Risk experience on the Kibali Gold project (DRC).

*Every leading member of the Logik Group Africa team is committed to building a sustainable, reliable organisation that serves its clients with ethics and integrity.*

# OBJECTIVES OF SLA's

**MAIN OBJECTIVE**

Accountability & verification that your property is properly maintained and that risks are easy to identify — with automated service reminders for all on-site equipment once onboarded into Inspeckta.

**Risk Identification**

Spot risks early

**Peace of Mind**

Equipment always covered

**Accountability**

Clear ownership

**Verification**

Proof it's maintained

inspeckta

# What is Inspeckta?

### Intuitive by Design
Effortless software built for teams across every industry.

### Safety, Every Day
Automatically monitor, maintain and safeguard equipment, daily.

### Anywhere Access
Seamless on web and mobile — wherever work takes you.

### Smarter Productivity
A powerful toolkit engineered to elevate performance.

inspeckta

# Inspeckta Manages All Your Data

- Equipment
- Customizable checklists
- Customizable checkpoints
- Users
- Teams
- Customers
- Customizable reports
- Locations
- Branches
- Work orders
- Classifications of equipment, work orders & checklists
- Quality assurance
- Safety accountability

inspeckta

- **A better way to get work done — unlike any software tool you've used before.**
- **Inspeckta meets the new standard in checklist and team management.**
- **Painstakingly designed to take the headache out of managing your teams' work — you'll never miss a thing.**
- **Manage all equipment owned or serviced by your company.**

inspeckta

# Benefits of Inspeckta

### Daily Automated Reports
Sent to staff & managers before work orders go overdue.

### Customer Location Mapping
Manage and map every customer site.

### Intuitive Checklist Builder
Build checklists your way.

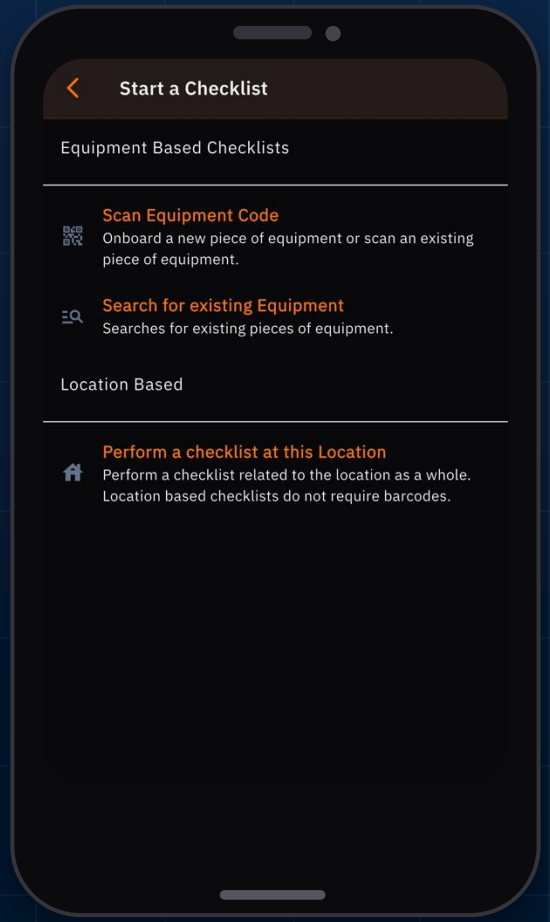

### Quality Control System
Built-in QC management.

### Simple Team Management
Manage your teams with ease.

### Safety & Accountability
Full safety assurance and accountability.

### Powerful Custom Reporting
Craft reports that fit how you work — no two companies report the same.

inspeckta

# How does Inspeckta work?

To start a checklist in the Inspeckta mobile app, you have three options:

- **Scan a Code**
- **Search for existing Equipment**
- **Perform a checklist at this Location**

**Get the mobile app**

IOS

ANDROID

inspeckta

## How It Works

### Scan a Code
Onboard new equipment or scan existing equipment to start a checklist.

### Search for Equipment
Find existing equipment to start a checklist.

### Perform a Checklist
Run a location-based checklist — location-based checklists do not need barcodes.

## Why It Matters

- **Go paperless — track every outcome with certainty.**
- **Pinpoint accuracy — know where and by whom.**
- **Date & time logged on every completed checklist.**
- **Records accessible any time.**

# inspeckta

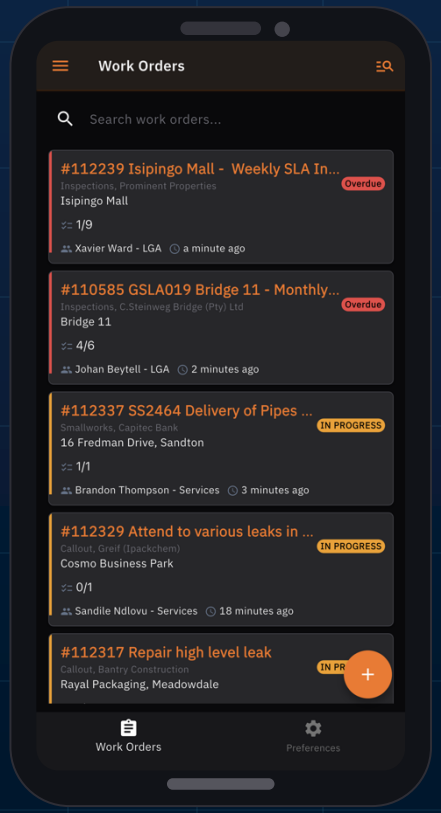

## A centralized, real-time view of your entire fire-protection operation.

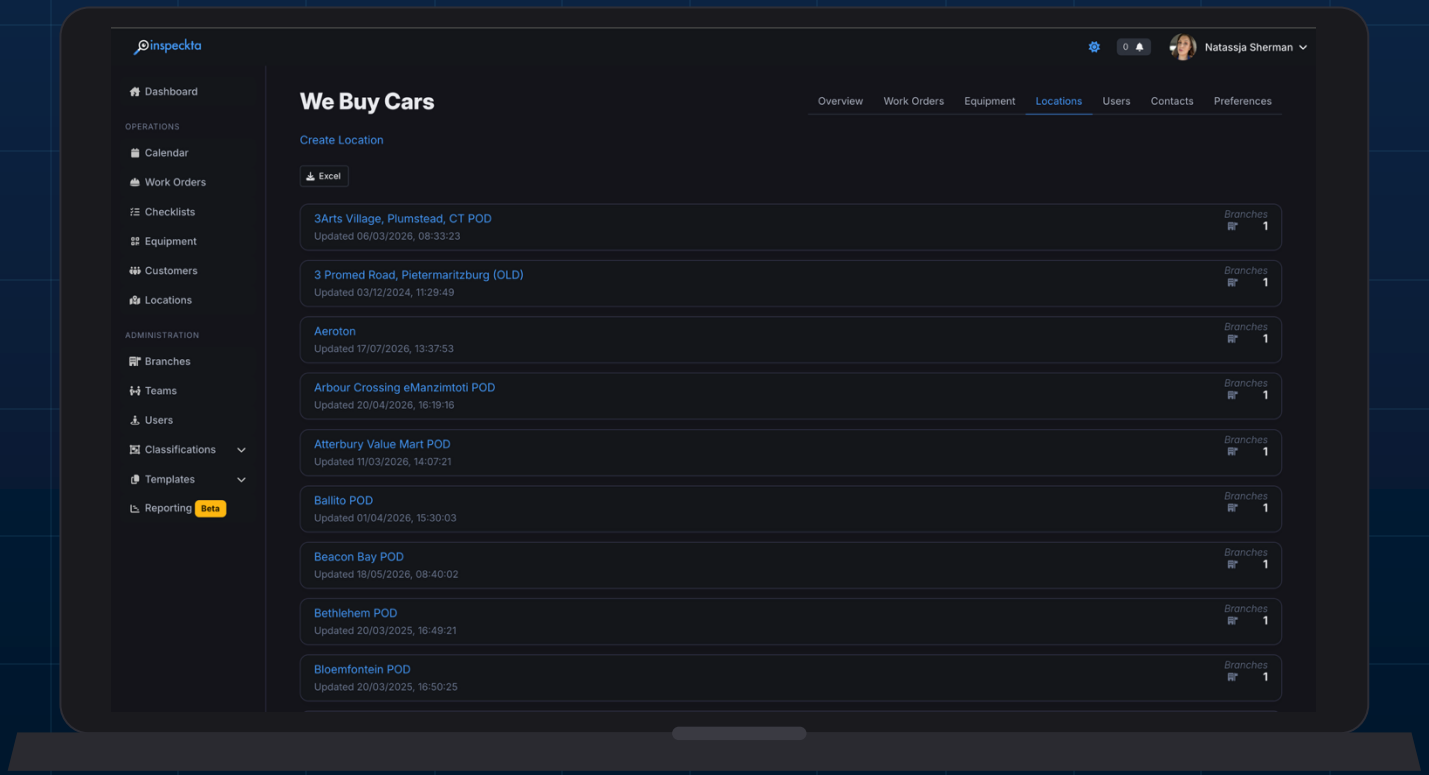

- **Equipment**
- **Work Orders**
- **Checklists**
- **Recent Activity**

inspeckta

**Customer** Profiles let you view all your facilities and equipment — including **equipment registers**, **risk profiles**, and **downloadable job cards**.

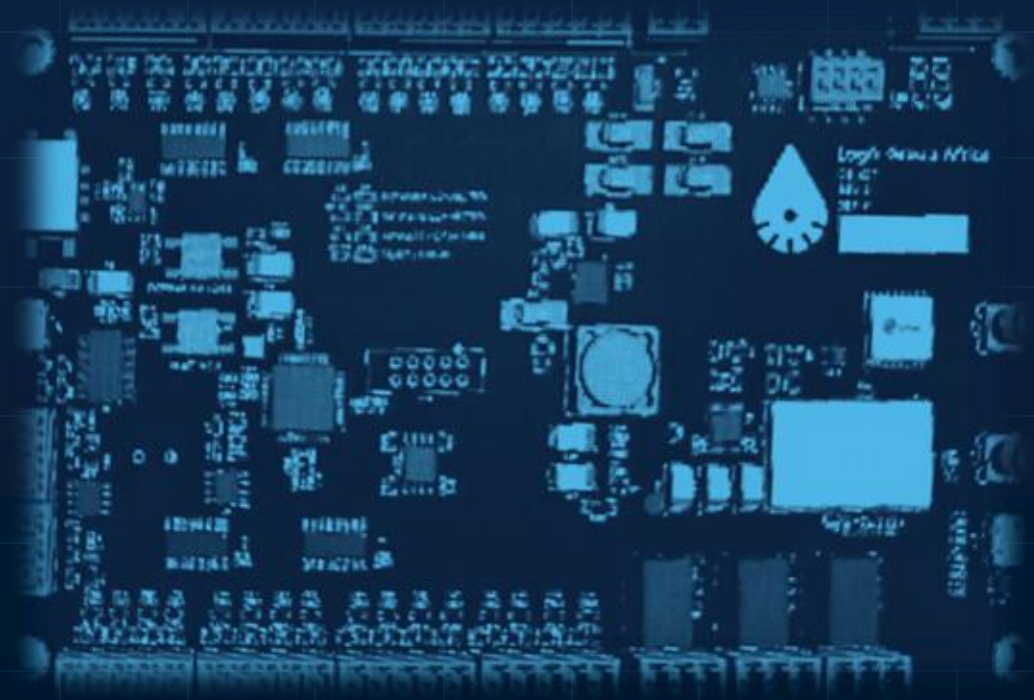

# MONITORING FIRE PUMPS & GENERATORS

A new offering bringing early, proactive signalling via app, email & desktop notifications.

- **Real-time pump-start alerts**
- **Diesel usage monitoring (optional diesel sensor on the pump tank)**
- **Fire-tank water levels (optional tank probes / sensors)**
- **Remote control, pump logs, GEO-location & full desktop data**

REMOTE MONITORING

# VALUE OF REMOTE MONITORING

LIFE
LOVE | INNOVATION | FIRE | EXCELLENCE

## Operations

Cut running costs (fuel, maintenance)

## Personnel

Monitoring, accountability, transparency

## Utilisation

Improve equipment usage

## Profitability

Optimise inspections & maintenance

## Service

Punctuality, references

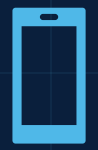

## Peace of mind

Comfort that all activities are on track, ROI

REMOTE MONITORING

# PEACE OF MIND

FOR PROPERTY OWNERS & MANAGERS

## Fire protection you never have to wonder about.

Your fire pumps report directly to your phone — the moment something needs attention, you'll know.

# WHAT IT DOES FOR YOU

## Protect Your Property — 24/7

Pump-room alarms reach you in seconds via WhatsApp — no waiting for a routine test.

## Insurance & Compliance Ready

Tamper-proof cloud logs and automatic, time-stamped test reports insurers ask for.

## Pay Less, Worry Less

Fewer false call-outs, no fuel waste, and remote contact-list updates when staff change.

REMOTE MONITORING

# YOUR MONTHLY PLAN

*Standard notifications · data cost only*

**400**

WhatsApp Messages / month

**50,000**

Cloud Storage Registers

**5**

Cell Numbers on your alert list

## ALL INCLUDED

- **We manage the SIM card**
- **We manage the data top-ups**
- **Update your contact list anytime**
- **Web dashboard & PDF reports**

***Ask about add-ons:*** *Diesel level monitoring · Water-tank levels · Valve-position sensors*

# 3D SCANNING

See Matterport in action

Creating your 3D digital twins of any physical space to experience a virtual tour

### 3D Virtual Tour
Walk through a property as if you're actually there

### Measurements
Precise measurements within your space to help manage virtual staging

### High-Definition Photos
4k print-quality photos from every angle

### Publishing
Publish to Google Street or Embed your 3D space on your website

### Embedded Annotations & Media
Add comments and links to specific items in your space via digital tagging

### Videos
Ready made tour videos

### Floor Plans
Designs/Drawings in collaboration Revit & CAD

### Highlight Reel
Create highlight reels that showcase the most significant parts of your facility

# FIRE STOPPING

Fire stopping is a critical component in fire protection systems, designed to prevent the spread of fire and smoke through openings and gaps in walls, floors, and ceilings.

It involves sealing joints, penetrations, and other gaps in building structures to contain fires and limit damage. We provide Hilti Solutions for Fire Stopping.

### Safety First

Fire stopping helps prevent the spread of fire and smoke, saving lives and reducing property damage.

### Compliance

In many jurisdictions, fire stopping is a legal requirement in building codes, and non-compliance can result in hefty fines or legal consequences.

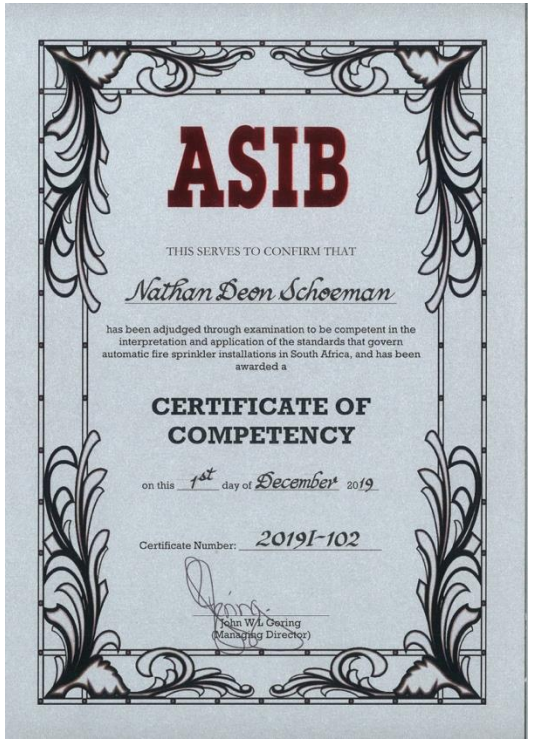

### Cost Savings

Preventing the spread of fire minimizes damage to the building, reducing the overall cost of repairs and potential downtime.

# COMPETENCY

ASIB

THIS SERVES TO CONFIRM THAT

# WHY WORK WITH US

### Qualified Experts
Highly qualified, experienced professionals.

### Tailored Service
Each offering customized to suit the client.

### Smart Technology
Innovative solutions keeping your buildings maintained.

### Cost Savings
Paperless, geolocated, with automatic service reminders.

# WHY WORK WITH US

## Accountability

The name of the person who did the inspection is recorded.

## Verification

Reports are automated and submitted on completion, date & time stamped.

## Proper Maintenance

Inspections done weekly or monthly to ensure everything is in working order.

## Easy to Identify Risk

Any defective items are listed and easily identifiable.

## Peace of Mind

Our team monitors the dashboard constantly, catching faults remotely.
